## JUNIOR WEB DEVELOPER

Adaptable junior web developer with experience building web applications for clients and brands, showcasing a strong foundation in front-end and back-end technologies. I have successfully delivered projects that conforms to users' requirement, leveraging modern frameworks like Next, React and Node.js.

## KEY COMPETENCIES

Frontend Dev - React, Next  
Backend Dev - Express, Node  
CSS Framework - Tailwind, MUI

Database - MongoDB, PostgreSQL  
Deployment - Render, Vercel  
JWT, EmailJS, GA, Pixel

**Languages**  
English : TOEIC - 980 (2019)  
Japanese : JLPT - N3 (2020)

## PROJECTS

for full projects please visit [subha.space](https://subha.space)

### Yunus Thailand Blog Site - NEXT/EXPRESS/SUPABASE/Tailwind

<https://yunus-thailand.org/>

Developed fullstack blog and cms site where non-tech admin can make changes to blogs and area of the websites

#### Key features :

- Fully responsive blog website and blogs, members, and other databases hosted on SUPABASE
- A custom made WYSIWYG editor that is simpler than Wordpress. (Demo - <https://blog-editor-topaz.vercel.app/>)

### Doctor's Scheduling App - React/Tailwind

demo - <https://doc-sche.vercel.app>

Developed a doctor scheduling web app to manage ER assignments with minimal bias and fair workload distribution.

#### Key features :

- Fair workload distribution: Ensures balanced schedules for all doctors. App will highlight slots that break assignment rules.
- Assignment rules: Allows preferences for certain types of work to be included or excluded.
- Flexible timetable views: Offers both monthly and weekly views for easy planning and review.
- Team sharing: Generates a shareable timetable as a JPEG, ready for use in team messaging.

Currently being implemented in real-world settings, specifically for intern doctors, to streamline scheduling and reduce overall work.

### AI fortune teller - React/Tailwind/OPENAI API

demo - <https://fortune-teller-red.vercel.app/>

Developed a frontend prompt submission web app for an accessories brand to be used in their upcoming campaign

#### Key features :

- Personalized Fortune Telling : Collect user's general demographic data to be used in prompt to get personalized fortunes.
- Card Draw : Tarot random card draws result is added to the prompt for more personalized fortune

### Anime Search - React/Tailwind/TypeScript

demo - <https://project-henna-gamma.vercel.app/>

Frontend anime suggestion web app with filterable searches and by-topic recommendations

#### Key features :

- Filterable search : User query through input is submitted to get anime that matches that criteria
- Kanban Board : Anime can be saved into Kanban board to plan user to-watch list

## PROFESSIONAL EXPERIENCE

### Baagsmiths, Bangkok, Thailand

Mar 2022 - Present

#### Small Business Owner (Sales, Marketing, Financial Management, Client Relations)

- Achieved top Google SERP ranking for OEM case production(1st) and first-page results for OEM accessories.
- Increased capacity utilization from 30% ~100% in 6 months by enhancing digital presence and better sales efforts.

### Advanced Composite Corporation, Shizuoka, Japan

Mar 2020 - Jan 2022

#### Research and Development Engineer/ Corporate Planning

- Successfully planned and developed a competitive thermally conductive Carbon-Aluminum composites.

## EDUCATION

### B.Eng Metallurgy Engineering Chulalongkorn University

- Obtained Top 5 students scholarship upon entering the department (3rd)
- Dissertation - Synthesis of Bone Cells onto Ti6Al4V materials

## CERTIFICATIONS

Search Engine Optimization Specialization (Coursera)
